

Welcome to Make a Wave Leadership and Wellness Services

We are excited that you have joined us!

Making change in our lives, whether large or small, can be unnerving. It can also be fun and incredibly rewarding. We celebrate that you have made the first step and we look forward to supporting you. Our services are matched to your needs. We meet you where you are at, support you to get clear on your goals and provide the space and environment for you to achieve more than you expect. We invite you to show up and work hard - your results are based on your effort and your commitment.

We promise we will fully show up for you in every session.

Counselling

Our counselling sessions provide you with a safe, supportive space to get clear and real with yourself. Due to life events and traumas we can get stuck in looping distress, patterns and false beliefs that act as “holds” and prevent us from health, vitality and from moving towards our goals and desires. Our focus is to support you to identify these holds, determine if they are useful to you and support you to release or adjust based on where you are in your process. You can expect to be supported and you can expect to be challenged. Remember - if you are uncomfortable – you are growing! As you open to new ways of processing, perceiving and being in this world you will experience new freedom, confidence and liberation.

Leadership Coaching Neuro and Linguistic Programming

We provide one on one services, our signature Igniter Leadership Series or custom designed programs. Leadership Coaching is an incredibly transformative process that, when you are in a place to make real, significant change, can create profound impact in your life. Our coaching continually gives all the power back to you, the client. We believe that you are the expert in your life and we are the experts that support you to move into your personal best. Our processes use professional coaching techniques and cutting edge Neuro Linguistic Programming that support integration of your fragmented self back into the whole. We bring you into alignment with your passions and purpose as individuals or synergistic groups.

Reiki and Quantum Healing Chamber

We live in a world of energy. Our thoughts, actions, bodies are all forms of energy. Reiki is an ancient practice that acknowledges this universal energy. Everything and everyone innately seeks balance, nature teaches us that. At times when we are out of balance can experience blockages physically, mentally, emotionally and spiritually. These can limit us and lead to unhealthy choices, misalignment with our values and passions and ultimately illness. Reiki and the Quantum Healing Chamber are subtle and powerful forms of energetic frequencies that support the body to release blockages and re-establish natural states of health and vitality. Reiki is a “lighter” session and used in combination with other therapies. The QHC is a deep cleaning and imprinting; a shamanic process with ancestral energies.

Spiritual Mentorship and Support

As we all move deeper into our true selves there may be a calling to tap into a higher aspect of consciousness/creation/God. Whatever you use as a belief system and as your higher power, we can support you to establish an even deeper connection with that aspect of yourself through Spiritual Mentorship, Coaching and Guided Meditation. You will experience a more expansive, aligned and humble presence the deeper you move into your spiritual self; you will become the objective observer and love giver in a world that needs just that.

What can I expect at my first session?

Based on the level of service you have requested, this is a time when we get to know each other. You get to tell your story. We get to listen. We may ask some questions to further understand you and your expectations of us and yourself. This is when we determine how we can best meet you where you are at and support you to get where you want to be. With some of the energetic work we may bypass this stage and get right to it.

What is the duration of a session?

Our sessions are typically one hour. We can combine or extend sessions as it fits with your process.

How long will it take to achieve my goals?

The journey to wholeness and vitality can vary and it is fully driven by your needs, your goals and your commitment to do the work. Some people choose the continuous commitment with our packages deals and some choose one session at a time. You get to decide. Typically, clients see the most results with at least 8 - 10 consecutive sessions.
